About me

I am an energetic, ambitious person who has developed a mature and responsible approach to any task that I undertake, or situation that I am presented with. As a graduate with two and half years of experience in software development. I am excellent in working with others to achieve a certain objective on time and with excellence. In my spare time I enjoy programming and working on my website, that is made of these technologies: SQL Server, ASP.NET Core and Angular.

Link to my website: <https://www.5cables.dk>

The project can be seen on github: <https://github.com/TaliDeep/Cables>

Education
